

## EXECUTIVE OFFICER'S ORDER

**TO: Maria & Michael Godin**

*Of: 27 Scenic Ridge Creek N.W., Calgary, Alberta T3L 1V2*

**REGARDING: 161 Arbour Crest Road N.W., Calgary**

WHEREAS, pursuant to section 62 of the Public Health Act Chapter P-37 of the Revised Statutes of Alberta 2000, where after an inspection, an Executive Officer has reasonable and probable grounds to believe that a nuisance exists in or on the place that was the subject of the inspection or that the place or the owner of it or any other person is in contravention of this Act or the regulations, the Executive Officer may issue a written order.

AND WHEREAS I, an Executive Officer of the Calgary Health Region, have inspected the above noted premises and found to exist the following conditions which are or might become injurious or dangerous to the public health, or that might hinder the prevention or suppression of disease, or are in contravention of the Housing Regulation and/or the Nuisance and General Sanitation Regulation pursuant to Section 66 of the Public Health Act, namely:

- Beginning mould growth is evident within the premises
- Electrical system has been tampered with
- Structural and interior damage is evident in the premises
- Public health nuisance conditions are present in the premises

TAKE NOTICE that the undersigned Executive Officer hereby **ORDERS** you, the owner, of the said Premises to:

**Immediately secure the house from any and all unauthorized entry AND clean and disinfect and repair the house at the Premises in a manner acceptable to Calgary Health Region, which shall include but not be limited to:**

- a. obtaining the services of a **professional Environmental Health or Indoor Air Quality Consultant** to assess the conditions within and carry out environmental air quality analyses of the interior spaces for water and mould damage, including the attic, wall and floor cavities, and crawlspaces. Testing and reporting shall follow the requirements outlined in Calgary Health Region's Fungal Air Testing Protocol and shall and must include extensive intrusive and destructive testing and shall and must include inspection and assessment of hidden cavities and surfaces such as, but not limited to, cutting access holes (or using boroscopes) into walls and ceilings, lifting carpets or vinyl sheet flooring, removing wallpaper for investigation purposes. The extent of such investigation is at the expert discretion of the consultant. The consultant shall describe in a report the building construction, finishes, materials and components and the results of their investigations along with recommendations for restoration, repair, and the remediation as
